Jeff. Davis' Message.

The message of the Arch-Traitor Jeff. Davis to the representatives of his minions in what he pleases to suggest is "the third Congress of the Confederate States of America," presents some features which should be contemplated seriously by those who claim to be his friends in Oregon, and who try to induce the Government to feed and lodge their lazy carcases by the foolish but entirely unprovoked assertion that they have not a drop of loyal blood in their veins. The old serpent is evidently in his dotage; perhaps he believes what he says; but if so, he should be quietly taken care of and put in an asylum for the insane. No man with even an occasional lucid interval would allow such an effusion to be presented to a legislative assembly, and if it were, it would argue want of sense in the assembly to permit its publication. After the usual number of bare-faced, stereotyped falsehoods which are uttered as apologies for treason, he complains of Great Britain and France for a "disregard of duty and treaty obligations," in detaining and preventing some of the pirate ships for which our Government was about to hold those nations responsible. Jeff threatens, after he attends to the little matter he has now in hand, to "demand redress" of his inconstant European friends, for "a record of many wrongs." He estimates his treasury notes in circulation at about $430,000,000, "believed to be already ample for the business of the country."

After congratulating his fellows upon their distinguished bravery and valuable successes, "while resolute in devoting all our energies to securing the realization of the bright auspices which encourage us," Jefferson heard from Gen. Grant, and incontinently skedaddled, leaving his capital to "realize" the "bright auspices" while he "traveled for his health."

Lane County.—A friend at Eugene City, in transmitting for publication the official returns of Lane county, writes that the reception of the news of the re-nomination of Abraham Lincoln, and the nomination of Andy Johnson was the signal for a general outburst of enthusiasm. One hundred guns awoke the echoes and spread the joyful news far and wide, only to arouse fresh demonstrations of joy as it passed along. Loyal Lane county will do even better next time than it has just now, because the schemes of certain parties which were misunderstood before election are now plain as day, and the lesson once learned will not be soon forgotten. Nor is Lane alone in the awakening. It has been the same in several others, and were the election to be repeated next week, the Union majorities would nearly double in many. Only keep our eyes open and the loyalty pure, and we'll give Lincoln and Johnson such a majority as was never heard of before in Oregon. Elsewhere will be found the official vote of Lane.

Oregon Educational Association.—We are in receipt of a circular from the Executive Committee of the "Oregon Educational Association and State Teachers' Institute," calling public attention to its objects, and inviting the co-operation and attendance of all friends of education at a meeting to be holden in Albany, August 2d and the three following days. An interesting time is anticipated, and we hope that our people will individually feel it their duty to make it profitable as well as pleasant for the devotees of popular education. Oregon is now old enough, and possessed of all the *materiel* requisite for the support of first class institutions of learning, and with the experience of the older States at our command, there is no justification or apology for a lack of very general and cheap schooling for the rising generation. In this regard, a portion of the responsibility rests upon the head of every family, present or prospective, in the State. Let there be a good attendance at Albany.

Fourth of July.—The citizens of Yamhill County are making extensive preparations for a grand Union celebration of the 4th of July, at Lafayette. Governor Gibbs is to deliver the oration. A brass band and a number of military companies will be present. We also hear that the day will be celebrated at Salem, Harrisburg and Eugene City. Let the day be generally observed throughout the State. It is time other counties were moving in the matter.

Grand Masonic Gatherings.—The M. E. Grand Chapter of Royal Arch Masons for the State of Oregon, will commence its Annual Session in the Hall of Willamette Lodge, No. 2, in this city, on Friday next, 17th instant. The Annual Communication of the M. W. Grand Lodge of Oregon will be holden in the same place, commencing on the following Monday, the 20th inst.

Josephine County

The election in Josephine county has resulted in the election of all the Democratic candidates but one. Thomas Floyd has beaten Geo. T. Vining for Sheriff. T'Vault is reported to have received a majority of fifteen, which will elect him District Attorney, over B. F. Dowell, by one vote.

Wasco County.

From Celilo, Hood River and John Day Precincts official returns have since come in, giving Henderson 55, Kelly 37—making Henderson's total vote in Wasco county as far as heard from 476 to Kelly's 361. Majority for Henderson 115.

Baker County.

Returns from LaGrand precinct give Henderson 160, Kelly 97.

Washington Territory Election Return

Cowlitz county—Official.

MONTICELLO, W. T., June 11, 1864.

Editor Oregonian:

I give you the official vote of Cowlitz and Wahkiakum counties:

For Joint Representative—W. W. Hays (Union) 97; Thos. Roe (Dem.) 45. Hays' majority, 45.

For Prosecuting Attorney—H. G. Struve (Union) 56; A. J. Lawrence (Dem.) 43. Struve's maj. 13.

The entire Union ticket for County and Precinct officers is elected. Copperheads gone in.

Yours respectfully,
A. H. BURBANK.

Ratification at Belpassi.

Editor Oregonian:

A large number of the citizens about Belpassi and Waconda met at the Belpassi Academy on the evening of the 10th inst., for the purpose of holding a "Ratification Meeting." L. H. Poujade, Esq., was elected chairman of the meeting and Prof. E. P. Henderson Secretary. F. O. McCown, H. P. Jackson and C. Calvert, were appointed a committee to draft resolutions, expressive of the sense of the meeting relative to the action of the late Union Convention held at Baltimore, Md. While this committee was out, the meeting was addressed by E. P. Henderson. The committee reported the following:

Resolved, 1. That we *heartily endorse* the action of the Union Convention, held at Baltimore on the 8th inst., in the nomination of Abraham Lincoln for President and Andrew Johnson for Vice President.

Resolved, 2. That in Abraham Lincoln and Andrew Johnson, we recognize *devoted patriots, wise statesmen* and *champions of universal freedom*.

Resolved, 3. That John C. Fremont, in accepting the nomination of a *faction* which recently held a convention at Cleveland, Ohio, has shown himself unworthy the high position which he so lately held in the Republic, and deserves the contempt of every true Union man.

The first and second resolutions were unanimously adopted and without discussion. The third called forth quite a spirited debate; Messrs. Engle, Brown and others in the affirmative, and Messrs. Magone and Snowden in the negative. After the discussion, the resolution was adopted with but two dissenting voices.

On motion by Samuel Brown, Esq., the Secretary was requested to furnish a copy of the minutes of the proceedings to the Daily Oregonian and *Statesman* and request their publication.

After three cheers for Lincoln and Johnson the meeting adjourned.

E. P. HENDERSON,
Secretary.

Revival of an Old Gold Prospecting Fever.—The Owyhee correspondent of the Boise *News* writing under date of June 1st says.

LOST DIGGINGS.

A number of men started from here some two weeks since to find the place above mentioned. The story is, that an Indian got sun blind, or snow blind and a whiteman took him to his home and heart, and one day the Indian left mysteriously, and came not again. Time passed along and the Indian was forgotten, but his benefactor was as steady in his faith of the Indian's return, as the Jews are of the Messiah's coming. Well, the Owyhee mines were struck, and the Indian's friend concluded to see the place, on his way from Humboldt, for he dwelt there; he met the identical red man fishing for salmon on the Owyhee; they embraced; and then the savage took the protector aside, and told him he had struck it rich, several suns and moons away, somewhere on the headwaters of the Owyhee—big pieces, and plenty of them. To corroborate the statement, the wild man said, that an old wagon, very old, was lying near a white man's grave; upon this the party started, but have not yet returned. I believe there is an old legend somewhat similar among the people of the Willamette. The party are out, but I will not say which they will find—the wagon, the gold or the grave.

The Arch Copperhead, Fernando Wood.—A Union letter writer thus sketches this heartless politician and confirmed traitor:

For sleekness and apparent respectability of deportment, Fernando Wood is the gem of the opposition side of the House. Seen from the galley, he looks like a well to-do Methodist minister. He is tall and long-waisted and straight, and wears his sleek coat buttoned up to within a few inches of a very white collar, which makes him seem taller and longer waisted and straighter still, and leaves a clerical sparseness of a very white bosom. His face, latitudinally and longitudinally, is ample, but has the effect of length and sleekness. His hair is long and black, and sleek, and looks a little wiggish. He walks with an erect, measured, meditative tread; has a stately, nonchalant way of writing when loyal members speak, and a benign way of listening when any of his own clan begin to relieve themselves. "There is no voice so simple but assumes some trick of virtue in its outward parts." I never had the misfortune to hear him speak.

A new motive power has been invented by Profs. Barsanti and Matteucci, of Florence. The engine may be described as atmospheric, a vacuum being produced in the cylinders, under the pistons, by the explosion of a mixture of atmospheric air with an inflammable gas. The explosion is said to be without noise and free from danger. The consumption of the gas used is one-third of a cubic metre per horse power per hour. The gas is said to be produced at a cost of less than a penny the cubic metre; consequently a horse-power can be obtained at about one-third of a penny the hour. The machines constructed are reported to work satisfactorily, and the principle to be equally applicable to marine and locomotive engines.

CAIRO, June 11.—The Ohio river boats report that the guerillas are enforcing a merciless conscription in Kentucky above Smithland, sweeping the country of all the men under 50, especially those of Union sentiments. They respect States rights people, with the exception of helping themselves to horses, mules and supplies. Families are fleeing before the conscription.

The steamer *Washington*, from New Orleans, confirms the report of the blockade of the Mississippi river at Greenville by Marmaduke's force.

Three steamers were lying above Greenville awaiting the result of the engagement which had been going on, for two days between the gunboats and batteries. But little if any impression has been made on the batteries.

The guerillas have again been committing outrages in Louisiana.

WASHINGTON, June 11.—The Richmond *Examiner* of the 8th says, Hunter occupied Stanton, driving the rebels 12 miles. The rumor also prevailed that the Union forces have moved to the South and occupy Lexington. The *Examiner* of the 7th says, last night the enemy abandoned our left and part of our centre. Impression here is that Grant is making his way to James river and will cross to the south side.

NEW YORK, June 10.—The *Herald's* correspondent says a division of the fifth corps occupies a position on the railroad over Chickahominy crossing the river two miles above Sumner's Bridge. The enemy are strongly posted on the opposite side with heavy guns, which opened fire upon our columns. Our troops moved up and silenced the rebel guns.

Another correspondent says: Our lines have been somewhat advanced and placed in strong condition for defense. The enemy are in speaking distance of our lines. Our ranks are being rapidly filled by reinforcements. About 4 o'clock P. M. of the 8th the rebels made a desperate charge on our works and were again disastrously repulsed.

CHICAGO, June 10.—Dispatches from the White House, dated the 8th, say that Sheridan has gone on another very important raid which if successful will be most beneficial as it is the most hazardous expedition of the war.

NEW YORK, May 10.—The *Tribune's* correspondent gives details Sherman's movements up to the 1st of June, of which mention has already been made. May 21st and 22d were devoted to rest at Cassville. On the 22d an order was given to move next morning on the direct route to Atlanta. At Etowah the enemy's pickets were driven in and we crossed the river and pushed towards Huntsville, skirmishing on the way, and reached Burned Hickory, thus flanking them. Towards evening heavy firing was heard in front of Hooker's position, and troops were hurried up but reached the scene after dark, when the firing had ceased. They found that Hooker had suddenly fallen upon the enemy in a swamp and driven him back. Next morning another skirmish took place and the rebels were again forced back rapidly followed by our troops, when suddenly a masked battery opened with destructive effect upon our men. They were cut down by scores. Our loss between 200 and 300. Our army was positioned in front of the enemy who was strongly posted in four miles of Dallas. Next day the enemy massed his forces for an assault upon our works, and for half an hour the fighting was terrible and the slaughter of the enemy great. They were driven back in confusion. At the same time a powerful attack was made on McPherson's right which was repulsed. The enemy's loss is between 2,000 and 3,000. On the 31st a feeble attack was made by the rebels who were repulsed. On Thursday noon we entered Dallas.

The *Times* has an account of Gen. Averill's operations in the expedition sent out to distract the attention of Morgan and other rebel commands from the expedition under Gen. Crook. In this Averill appears to have been successful, as he kept Morgan with 5,000 men near Wytheville until Gen. Brook succeeded in completing his work, and then moved to join Crook. On the way encountered Gen. Morgan, though out numbered two to one, he found it necessary to make a stand and fight for an hour. The gallant little command withstood assault after assault, holding their ground as firm as a rock until dark; Averill then moved off, Morgan not deeming it advisable to follow. He eventually fell in with Crook after having several skirmishes, meeting a force of 1,500 men under Jenkins, whom he flanked. At this time his command is entirely out of ammunition.

A special despatch from Washington says, owing to a break in the telegraph no dispatches were received from the Army of the Potomac.

Dispatches this morning, dated 9 o'clock last night, say there was no fighting on Wednesday, except by pickets.

Arrangements were effected by which the killed and wounded could be gathered in.

There was no movement on the 9th.

A deserter who came into our line reports Hunter's victory more complete than the Richmond papers reported. He says Hunter took twenty cannon, many prisoners and a quanity of stores. The defeated force was recently a part of Breckinridge's command. Hunter's report is not yet received.

The special dispatch to the *Tribune* says: The rejection of the bankrupt bill is not regarded as decisive. There is a disposition to defer it until December.

Fourteen bodies have been recovered from the wreck of the *Berkshire*; the number will probably reach 40.

The most of the leading journals in this city devote several columns to exceedingly interesting official communications from Secretary Seward to the Senate, relative to the feasibility of the great advantage to be derived from the projected international telegraph to unite Europe and America *via* Behring's Straits. These journals also contain editorials highly commendatory of the great enterprise, and urge prompt legislation on the part of Congress to enable the company to proceed immediately with the vast work.

The steamer *Arago*, from Port Royal, has arrived.

The new *Ironsides* has arrived at Hilton Head; a blockade runner attempted to come out on the night of the 6th, but grounded and was completely knocked to pieces.

Admiral Dahlgren arrived at Hilton Head on the 7th.

BOSTON, June 10.—A fire at Nos. 16 and 17 Row's Wharf, destroyed property valued at $50,000.

CINCINNATI, June 10.—One of Morgan's men was captured at Maysville reports the force in Kentucky under the immediate charge of Morgan, Smith and Ashton. This force amounts to about 3,000, a large portion being dismounted cavalry. They entered Kentucky at Pound Gap. A scouting party under Everett had been sent ahead to pick up horses for the dismounted men. They passed through Hazle Grove, Owensville and Flemingsburg, and took Maysvile without resistance, robbing the citizens of money and other valuables. Union men, farmers, were stripped of their horses, while those persons sympathizing with the rebels were protected.

Everett left Maysville on Wednesday at 4 P. M. for Mount Sterling, at which place it is thought Morgan's men were concentrating with the intention of attacking Lexington. The position of affairs in the central portion of the State to-day is not known as communication with Lexington is cut off. It is thought the intention of the rebels is to destroy all the railroads possible and make their exit through central Kentucky into middle Tennessee. The Kentucky Central Railroad is being repaired and trains will run to-morrow to Cynthiana.

Curious Incident at a Launch.—A Cincinnati papers thus reports an incident at the launch of the iron-clad *Catawba* in that city on Wednesday:

At the foot of Butler street a great crowd was gathered, and though those standing near the water's edge were repeatedly ordered away, they returned whenever the policemen were called elsewhere. At the moment the vessel was fully in the water an immense wave rolled shoreward, instantly submerging one or two hundred people, and carrying many of them off their feet. As it retreated, a sight once ludicrous and terrifying was presented. Women and children were crawling up the muddy bank, wildly clutching at each other's heels: men were floundering on their backs, and one individual carried off by the undertow, was frantically hugging a log, alternately floating and burrowing in the mud, as the surf advanced and receded. Fortunately, the first wave was the largest and most sudden, and all the bathers against their will scrambled out of danger. One bedraggled individual said he "didn't care a pin for the wetting, but he didn't like to miss the show."

The President to the People.—The following appears among the dispatches in the St. Louis *Republican* of May 11th, but was not telegraphed to the people of the Pacific Coast:

EXECUTIVE MANSION,
WASHINGTON, May 9, 1864.

To the Friends of Union and Liberty: Enough is known of the army operations within the last five days to claim our especial gratitude to God, while what remains undone demands our most sincere prayer to and reliance upon Him without whom all human efforts are in vain. I recommend that all patriots at their homes, in their places of public worship and wherever they may be, unite in common thanksgiving and prayer to Almighty God.

In the District Court of the United States for the District of Oregon.

The Monticello and Cowlitz Landing Steamboat Company, libellant, vs. the steamboat *Senator*.

WHEREAS, a libel has been filed in the District Court of the United States for the District of Oregon on the first day of June, A. D 1864, by the Monticello and Cowlitz Landing Steamboat Company against the steamboat *Senator*, her tackle, apparel and furniture, alleging in substance that said libellants have a claim for damages against said steamboat *Senator* in a cause of collision civil and maritime; That on Saturday, the 28th day of May, A. D. 1864, on the Willamette river, in the State of Oregon, while the steamboat *Rescue*, belonging to said libellants was proceeding on a voyage from the port of Portland to the port of Oregon City on said Willamette river, she was with great force and violence run into and upon by the said steamboat *Senator*, thereby causing great injury and damage to the wheel, shaft and machinery of the said steamboat *Rescue*; That said collision was caused by the unskillful and improper management and the carelessness and negligence of the persons navigating the said steamboat, *Senator*: And that in consequence of said collision and injuries to said steamboat *Rescue* libellants have sustained damages in the sum of two thousand dollars, and praying that the said steamboat *Senator* may be condemned and sold to pay the said sum of two thousand dollars damages. Now therefore, in pursuance of the monition under the seal of the said Court to me directed and delivered, I do hereby give notice to all persons claiming the said steamboat *Senator*, her tackle &c., or in any manner interested therein, that they be and appear before the said District Court to be held at the city of Portland in and for the District of Oregon on the first Monday of July next, (A. D. 1864) at ten o'clock in the forenoon of that day (provided the same shall be a day of jurisdiction thereafter) then and there to interpose their claims and make their allegations in that behalf.

Dated this 9th day of June, A. D. 1864

W. H. BENNETT,
U. S. Marshal for the District of Oregon.
Logan & Friedenrich, Proctors for libellants. je10 14d

"Whiskey and Syrup."—One half of the freight by the steamer *Pacific*, may be set down [illegible] are kegs—diminut[illegible] and kegs of all grade[illegible] so many kegs [illegible] In order to avoid any [illegible] as to the results of such an addition [illegible] stock of liquors on hand in this city, we will say that most of this supply is directed for the upper country, and in case of a "dry" time can be applied for sluicing, to good advantage.

Settling Old Accounts.—Two person met on Couch's wharf yesterday, and although it was Sunday, and a time not calculated for settling financial matters, they managed to raise a squabble about a difference of accounts amounting to a dollar or two, and a fight ensued, resulting in a dangerous wound in the face of one of the parties concerned. The men both belonged on the river, in the employ of rival steamboat lines, but whether there is any animosity existing on that score, we are unable to state. The case will be taken before the Recorder.

Target Shooting.—At the target shooting by Company A, on Saturday, some sixty shots were fired. The distance was one hundred yards, and, according to the tally, the execution was even better than was expected. G. B. Gray, Esq., carried off the palm, and Mr. Geo. A. Buchanan was his second. Captain Powell, on behalf of his company, wishes to tender thanks to Capt. Kerns of the steamer *Loyal Ellsworth*, for valuable services in the transportation of troops and munitions.

Pretty Good.—An experiment was made in this city on Saturday, in test of some rock from the "Daniel Webster" lode, Boise, which shows the quality to be good. Two pounds and a half of the rock yielded fifty cents' worth of gold. That agrees with the price of sugar—"five pounds for a dollar."

The Weather.—Alternate showers of rain yesterday rendered the atmosphere quite invigorating, and the warm rays of Sol invited many out to gossip on the street corners or promenade the passable avenues.

Jeff Davis Message

The message of the Arch traitor Jeff Davis to the representatives of his minions in what he pleases to suggest is "the third Congress of the Confederate States of America," presents some features which should be contemplated seriously by those who claim to be his friends in Oregon, and who try to induce the Government to feed and lodge their lazy carcases by the foolish but entirely unprovoked assertion that they have not a drop of loyal blood in their veins The old serpent is evidently in his dotage perhaps he believes what he says, but if so, he should be quietly taken care of and put in an asylum for the insane No man with even an occasional lucid interval would allow such an effusion to be presented to a legislative assembly, and if it were, it would argue want of sense in the assembly to permit its publication. After the usual number of bare-faced stereotyped falsehoods which are uttered as apologies for treason, he complains of Great Britain and France for a "disregard of duty and treaty obligations," in detaining and preventing some of the pirate ships for which our Government was about to hold those nations responsible Jeff threatens, after he attends to the little matter he has now in hand, to "demand redress" of his inconstant European friends for "a record of many wrongs" He estimates his treasury notes in circulation at about $430,000,000 "believed to be already ample for the business of the country"

After congratulating his fellows upon their distinguished bravery and valuable successes "while resolute in devoting all our energies to securing the realization of the bright auspices which encourage us," Jefferson heard from Gen Grant and incontinently skedaddled, leaving his capital to "realize" the "bright auspices" while he traveled for his health"

LANE COUNTY — A friend at Eugene City, in transmitting for publication the official returns of Lane county writes that the reception of the news of the renomination of Abraham Lincoln, and the nomination of Andy Johnson was the signal for a general outburst of enthusiasm One hundred guns awoke the echoes and spread the joyful news far and wide, only to arouse fresh demonstrations of joy as it passed along Loyal Lane county will do even better next time than it has just now, because the schemes of certain parties which were misunderstood before election are now plain as day, and the lesson once learned will not be soon forgotten Nor is Lane alone in the awakening It has been the same in several others, and were the election to be repeated next week, the Union majorities would nearly double in many. Only keep our eyes open and the loyalty pure, and we ll give Lincoln and Johnson such a majority as was never heard of before in Oregon Elsewhere will be found the official vote of Lane

OREGON EDUCATIONAL ASSOCIATION —We are in receipt of a circular from the Executive Committee of the "Oregon Educational Association and State Teachers Institute," calling public attention to its objects and inviting the co operation and attendance of all friends of education at a meeting to be holden in Albany, August 2d and the three following days An interesting time is anticipated, and we hope that our people will individually feel it their duty to make it profitable as well as pleasant for the devotees of popular education Oregon is now old enough and possessed of all the *materiel* requisite for the support of first class institutions of learning and with the experience of the older States at our command there is no justification or apology for a lack of very general and cheap schooling for the rising generation In this regard a portion of the responsibility rests upon the head of every family, present or prospective in the State Let there be a good attendance at Albany

FOURTH OF JULY —The citizens of Yamhill County are making extensive preparations for a grand Union celebration of the 4th of July at Lafayette Governor Gibbs is to deliver the oration A brass band and a number of military companies will be present We also hear that the day will be celebrated at Salem Harrisburg and Eugene City Let the day be generally observed throughout the State It is time other counties were moving in the matter

GRAND MASONIC GATHERINGS —The M E Grand Chapter of Royal Arch Masons for the State of Oregon will commence its Annual Session in the Hall of Willamette Lodge, No 2, in this city on Friday next 17th instant The Annual Communication of the M W Grand Lodge of Oregon will be holden in the same place commencing on the following Monday, the 20th inst

Ratification at Belpassi

EDITOR OREGONIAN

A large number of the citizens about Belpassi and Waconda met at the Belpassi Academy on the evening of the 10th inst, for the purpose of holding a "Ratification Meeting" L H Poujade Esq was elected chairman of the meeting and Prof E P Henderson Secretary. F O McCown H P Jackson and C Calvert were appointed a committee to draft resolutions expressive of the sense of the meeting relative to the action of the late Union Convention held at Baltimore Md While this committee was out the meeting was addressed by F P Henderson The committee reported the following

Resolved 1 That we heartily endorse the action of the Union Convention, held at Baltimore on the 8th inst, in the nomination of Abraham Lincoln for President and Andrew Johnson for Vice President.

Resolved 2 That in Abraham Lincoln and Andrew Johnson we recognize *devoted patriots wise statesmen* and *champions of universal freedom*

Resolved 3 That John C Fremont in accepting the nomination of a *faction* which recently held a convention at Cleveland Ohio has shown himself unworthy the high position which he so lately held in the Republic and deserves the contempt of every true Union man

The first and second resolutions were unanimously adopted and without discussion The third called forth quite a spirited debate, Messrs Engle Brown and others in the affirmative, and Messrs Magone and Snowden in the negative After the discussion, the resolution was adopted with but two dissenting voices

On motion by Samuel Brown, Esq the Secretary was requested to furnish a copy of the minutes of the proceedings to the DAILY OREGONIAN and *Statesman* and request their publication

After three cheers for Lincoln and Johnson the meeting adjourned

REVIVAL OF AN OLD GOLD PROSPECTING FEVER —The Owyhee correspondent of the Boise *News* writing under date of June 1st says

LOST DIGGINGS

A number of men started from here some two weeks since to find the place above mentioned The story is, that an Indian got sun blind or snow blind and a white man took him to his home and heart and one day the Indian left mysteriously and came not again Time passed along and the Indian was forgotten, but his benefactor was as steady in his faith of the Indian's return as the Jews are of the Messiah's coming Well the Owyhee mines were struck, and the Indian's friend concluded to see the place on his way from Humboldt, for he dwelt there he met the identical red man fishing for salmon on the Owyhee, they embraced and then the savage took the protector aside and told him he had struck it rich, several suns and moons away, somewhere on the headwaters of the Owyhee—big pieces, and plenty of them To corroborate the statement, the wild man said, that an old wagon very old was lying near a white man's grave upon this the party started but have not yet returned I believe there is an old legend somewhat similar among the people of the Willamette The party are out, but I will not say which they will find—the wagon, the gold or the grave

THE ARCH COPPERHEAD, FERNANDO WOOD. —A Union letter writer thus sketches this heartless politician and confirmed traitor

For sleekness and apparent respectability of deportment, Fernando Wood is the gem of the opposition side of the House, Seen from the galley, he looks like a well to-do Methodist minister He is tall and long waisted and straight, and wears his sleek coat buttoned up to within a few inches of a very white collar, which makes him seem taller and longer waisted and straighter still, and leaves a clerical sparseness of a very white bosom His face, latitudinally and longitudinally, is ample, but has the effect of length and sleekness His hair is long and black, and sleek and looks a little wiggish. He walks with an erect measured, meditative tread; has a stately nonchalant way of writing when loyal members speak, and a benign way of listening when any of his own clan begin to relieve themselves "There is no voice so simple but assumes some trick of virtue in its outward parts" I never had the misfortune to hear him speak

A new motive power has been invented by Profs. Barsanti and Matteucci, of Florence The engine may be described as atmospheric, a vacuum being produced in the cylinders, under the pistons, by the explosion of a mixture of atmospheric air with an inflammable gas The explosion is said to be without noise and free from danger The consumption of the gas used is one third of a cubic metre per horse power per hour The gas is said to be produced at a cost of less than a penny the cubic metre, consequently a horse-power can be obtained at about one-third of a penny the hour The machines constructed are reported to work satisfactorily and the principle to be equally applicable to marine and locomotive engines

Another correspondent says Our lines have been somewhat advanced and placed in strong condition for defense The enemy are in speaking distance of our lines Our ranks are being rapidly filled by reinforcements About 1 o clock P M of the 8th the rebels made a desperate charge on our works and were again disastrously repulsed.

CHICAGO, June 10 —Dispatches from the White House, dated the 8th, say that Sheridan has gone on another very important raid which if successful will be most beneficial as it is the most hazardous expedition of the war

NEW YORK, May 10 —The *Tribune's* correspondent gives details Sherman's movements up to the 1st of June of which mention has already been made May 21st and 22d were devoted to rest at Cassville On the 22d an order was given to move next morning on the direct route to Atlanta At Etowah the enemy's pickets were driven in and we crossed the river and pushed towards Huntsville skirmishing on the way, and reached Burned Hickory, thus flanking them Towards evening heavy firing was heard in front of Hooker's position, and troops were hurried up but reached the scene after dark, when the firing had ceased They found that Hooker had suddenly fallen upon the enemy in a swamp and driven him back Next morning another skirmish took place and the rebels were again forced back rapidly followed by our troops, when suddenly a masked battery opened with destructive effect upon our men They were cut down by scores. Our loss between 200 and 300 Our army was positioned in front of the enemy who was strongly posted in four miles of Dallas Next day the enemy massed his forces for an assault upon our works, and for half an hour the fighting was terrible and the slaughter of the enemy great. They were driven back in confusion At the same time a powerful attack was made on McPherson's right which was repulsed The enemy's loss is between 2,000 and 3 000 On the 31st a feeble attack was made by the rebels who were repulsed, On Thursday noon we entered Dallas.

The *Times* has an account of Gen Averill's operations in the expedition sent out to distract the attention of Morgan and other rebel commands from the expedition under Gen Crook, In this Averill appears to have been successful as he kept Morgan with 5,000 men near Wytheville until Gen Crook succeeded in completing his work and then moved to join Crook On the way encountered Gen Morgan, though out numbered two to one, he found it necessary to make a stand and fight for an hour The gallant little command withstood assault after assault holding their ground as firm as a rock until dark Averill then moved off, Morgan not deeming it advisable to follow He eventually fell in with Crook after having several skirmishes meeting a force of 1,500 men under Jenkins, whom he flanked At this time his command is entirely out of ammunition

A special despatch from Washington says, owing to a break in the telegraph no dispatches were received from the Army of the Potomac

Dispatches this morning dated 9 o clock last night say there was no fighting on Wednesday, except by pickets

Arrangements were effected by which the killed and wounded could be gathered in

There was no movement on the 9th

A deserter who came into our line reports Hunter's victory more complete than the Richmond papers reported He says Hunter took twenty cannon many prisoners and a quantity of stores The defeated force was recently a part of Breckinridge's command Hunter's report is not yet received

The special dispatch to the *Tribune* says The rejection of the bankrupt bill is not regarded as decisive There is a disposition to defer it until December

Fourteen bodies have been recovered from the wreck of the *Berkshire*, the number will probably reach 10

The most of the leading journals in this city devote several columns to exceedingly interesting official communications from Secretary Seward to the Senate relative to the feasibility of the great advantage to be derived from the projected international telegraph to unite Europe and America via Behring's Straits These journals also contain editorials highly commendatory of the great enterprise and urge prompt legislation on the part of Congress to enable the company to proceed immediately with the vast work

The new *Ironsides* has arrived at Hilton Head, a blockade runner attempted to come out on the night of the 5th, but grounded and was completely knocked to pieces

Admiral Dahlgren arrived at Hilton Head on the 7th

BOSTON June 10 —A fire at Nos 16 and 17 Rowe's Wharf destroyed property valued at $50 000

CINCINNATI June 10 —One of Morgan's men was captured at Maysville reports the force in Kentucky under the immediate charge of Morgan Smith and Ashton This force amounts to about 3 000 a large portion being dismounted cavalry They entered Kentucky at Pound Gap A scouting party under Everett had been sent ahead to pick up horses for the dismounted men They passed through Hazle Green Owensville and Flemingsburg and took Maysville without resistance robbing the citizens of money and other valuables Union men farmers, were stripped of their horses while those persons sympathizing with the rebels were protected

Everett left Maysville on Wednesday at 4 P M for Mount Sterling, at which place it is thought Morgan's men were concentrating with the intention of attacking Lexington The position of affairs in the central portion of the State to day is not known as communication with Lexington is cut off It is thought the intention of the rebels is to destroy all the railroads possible and make their exit through central Kentucky into middle Tennessee The Kentucky Central Railroad is being repaired and trains will run to morrow to Cynthiana

CURIOUS INCIDENT AT A LAUNCH —A Cincinnati paper thus reports an incident at the launch of the iron clad *Catawba* in that city on Wednesday

At the foot of Butler street a great crowd was gathered, and though those standing near the water's edge were repeatedly ordered away they returned whenever the policemen were called elsewhere At the moment the vessel was fully in the water an immense wave rolled shoreward instantly submerging one or two hundred people and carrying many of them off their feet As it retreated, a sight once ludicrous and terrifying was presented Women and children were crawling up the muddy bank wildly clutching at each other's heels men were floundering on their backs and one individual carried off by the undertow was frantically hugging a log alternately floating and burrowing in the mud as the surf advanced and receded Fortunately the first wave was the largest and most sudden, and all the bathers against their will scrambled out of danger One bedraggled individual said he "didn't care a pin for the wetting, but he didn't like to miss the show"

THE PRESIDENT TO THE PEOPLE —The following appears among the dispatches in the St Louis *Republican* of May 11th but was not telegraphed to the people of the Pacific Coast

EXECUTIVE MANSION,
WASHINGTON May 9, 1864

To the Friends of Union and Liberty Enough is known of the army operations within the last five days to claim our especial gratitude to God, while what remains undone demands our most sincere prayer to and reliance upon Him without whom all human efforts are in vain I recommend that all patriots at their homes in their places of public worship and wherever they may be unite in common thanksgiving and prayer to Almighty God

TARGET SHOOTING —At the target shooting by Company A, on Saturday, some sixty shots were fired The distance was one hundred yards, and according to the tally, the execution was even better than was expected G B Gray Esq , carried off the palm, and Mr Geo A Buchanan was his second. Captain Powell on behalf of his company, wishes to tender thanks to Capt Kerns of the steamer *Loyal Ellsworth*, for valuable services in the transportation of troops and munitions

PRETTY GOOD —An experiment was made in this city on Saturday, in test of some rock from the "Daniel Webster" lode, Boise, which shows the quality to be good Two pounds and a half of the rock yielded fifty cents worth of gold That agrees with the price of sugar— five pounds for a dollar"

THE WEATHER —Alternate showers of rain yesterday rendered the atmosphere quite invigorating, and the warm rays of Sol invited many out to gossip on the street corners or promenade the passable avenues.

Arrival of the Steamship Pacific.—The steamship *Pacific*, A. M. Burns Commander, arrived in Portland on Saturday morning, from San Francisco, bringing about 400 tons of freight and the following passengers:

Col. H. H. Raymond, Col. Babbitt and wife, Mrs. Owens, two children and servant, Capt. Burns and wife, Miss Minnie Burns, Mrs. J. Collins, Miss Search, J. B. Knapp and wife, Mr. Williams wife and sister, Mrs. Waldron and children, Mrs. Loups and children, Miss Loups, Mrs. J. D. Dement and son, J. C. Palmer wife and children, Mrs. F. Rohr, Mr. Clarke, John O'Niel, Dr. J. W. Bines, A. S. Evans, J. H. Moores, W. Miller, Mrs. Landstrum, Selm and wife, Mrs. Stien, Mrs. Huff, Miss C. Patterson, Mrs. Patterson, Mrs. Clanver, Miss H. Sipe, Rev. T. Hyland and wife, A. Kygor, M. Moore, A. S. Abernethy, John Bergstring, Wm. Paterson, Louis Armstrong, T. Forns, E. Emiol, Mr. M. Pipkins, A. V. McCarthy, Stephen Patton, A. J. Patterson, Alex. Patterson, Frank Peters, M. Clark, J. A. Lord, (Wells, Fargo & Co's Messenger,) and 70 others.

J. H. POOLE, *Purser*.

Another Quartz Mill.—A 10-stamp quartz mill, with a steam engine, boiler, tools, and all the appliances for working, arrived on the *Pacific*, and was transferred to the steamer *Jilma G. Hunt* on Saturday, for the South Boise mines. This mill was manufactured to order in San Francisco, and is the third one now on the way to the mines of the upper country. Col. H. H. Raymond has it in charge and will push it through as fast as possible. The country into which this mill is going is noted for roughness, high mountains and deep gorges, but fast owners in that section, with an indomitable will, have dug out a passable way for vehicles, and Alturas will soon be enumerated among the rich counties of Idaho. The weight of Col. Raymond's machinery amounts to about 30,000 pounds.

Treasure by the Steamship.—The steamer *Pacific*, which left this port for Victoria and San Francisco this A. M., carried the following amounts of treasure:

Wells, Fargo & Co	$150,000
Allen & Lewis	25,000
Ladd & Tilton	20,000
Oregon Steam Navigation Co.	4,291
Ellett. Wiel & Co.	2,300
J. R. Foster & Co.	1,700
Total	$203,791

The same steamer carried a large number of passengers, and one party is known to have had about $25,000. There are other lots which do not appear upon the manifest.

"Whiskey and Syrup."—One half of the freight by the steamer *Pacific*, may be set down for the thirsty. The cases are kegs—diminutive kegs—larger kegs, and kegs of all grades. In fact we never saw so many kegs on a wharf in Portland before. In order to avoid any apprehension as to the results of such an addition to the stock of liquors on hand in this city, we will say that most of this supply is directed for the upper country, and in case of a "dry" time can be applied for placing, to good advantage.

Settling Old Accounts.—Two person met on Coach's wharf yesterday, and although it was Sunday, and a time not calculated for settling financial matters, they managed to have a squabble about a difference of accounts amounting to a dollar or two, and a fight ensued, resulting in a dangerous wound in the face of one of the parties concerned. The men both belonged on the river, in the employ of rival steamboat lines, but whether there is any animosity existing on that score, we are unable to state. The case will be taken before the Recorder.

Target Shooting.—At the target shooting by Company A, on Saturday, some sixty shots were fired. The distance was one hundred yards, and, according to the tally, the execution was even better than was expected. G. L. Gray, Esq., carried off the palm, and Mr. Joe. A. Buchanan was his second. Captain Powell, on behalf of his company, wishes to tender thanks to Capt. Kerns of the steamer *Lodal Ellsworth*, for valuable services in the transportation of troops and munitions.

Pretty Good.—An experiment was made in this city on Saturday, in test of some rock from the "Daniel Webster" lode, Boise, which shows the quality to be good. Two pounds and a half of the rock yielded fifty cents worth of gold. That agrees with the price of sugar—"five pounds for a dollar."

The Weather.—Alternate showers of rain yesterday rendered the atmosphere quite invigorating, and the warm rays of Sol invited many out to gossip on the street corners or promenade the passable avenues.

Arrival of the Bark Sam. Merritt.—The bark *Sam. Merritt*, Joseph Williams Commander, arrived in Portland yesterday noon, from San Francisco. The first three days out had strong north-west winds, thence for nine days had light south winds and calms. Was off the Bar 36 hours in strong south gale and thick weather. On the 9th inst. passed bark *Industry* at Sand Island, bark *Almatia* at Astoria,—both vessels went to sea on the 10th. Miss Anna Anderson, Mr. Boothby and Mr. Moody, were passengers. The following is a manifest of cargo:

H W Corbett 517 packages; B F Smith 150; M S & Co 43; J R Foster 149; Order 8; Knapp, Burrell & Co 59; Burgren & Shindler 2; Order 6; S R Plimpton 1; J W 50; Hodge & Calef 79; D & W 5; Dr Wetherford 12; Bannell Bros 269; E J Northrup & Co 12; Geo Thatcher 5; Bloch, Miller & Co 10; Harker Bros 91; G W Vaugn 239; Eagle Bakery 117; Richards & McCraken 210; C W & Co 100; Saxier 5; Milwain & Morse 90; F D & Co 25; Allen & Lewis 120; B L & Co 77; O & S 10; A Cahn & Co 50; P T Co 13; O Risley 1; Smith & Davis 409; J L Starkey 3; Order 47; W Sherlock 3; L Cahn 13; J H & J R Moores 45; Salem 272; S F & Co 7; Failing & Hatt 311; Levy & Block 13; G & B 11; Capt Hopkins 35. Total of packages, 4,691.

Property Sale at Auction.—A splendid property will be sold by Mr. Richardson, on Wednesday. It is situated on the north west corner of North Fourth and C streets, comprises three lots, and is an admirable location for a business man's residence.

Newspaper Favors.—We are under renewed obligations to Chas. Barrett for files of late Atlantic papers of much interest. Mr. Barret has "a few more left," besides Magazines, music, and other good things.

Meeting of Delegates.—The Board of Delegates of the Portland Fire Department meet at the Council Chamber this evening.

Pub. Docs.—Hon. J. W. Nesmith has forwarded to us some valuable documents, for which he has our thanks.

Notice.—Monthly meeting of Board of Delegates of Portland Fire Department, Monday evening, 13th inst., at the Council Chamber. All the members are requested to be in attendance. Business of importance requiring attention.
June 11, 1864.
D. C. COULSON, Sec'y.

Most of our Lady readers are, no doubt, aware of the fact that the beautiful embroidery on cloaks and dresses so fashionable, can only be executed on the Grover & Baker Sewing-Machine. This machine, always a favorite in the family, has now become indispensable. Unlike other machines, it is ever ready to perform, in the most perfect manner, every kind of plain or ornamental sewing that may be required; and we are not surprised to find it carrying off the highest premiums at the different State fairs now being held throughout the country.—*Le Bon Ton.*

In every age of the World, the professions have been slow to admit the value of new discoveries, or the expediency of adopting them in practice. It is not to the legal profession that we look for reforms in jurisprudence, neither do we find the advocates of medical reform among physicians. Each deprecates whatever is found to innovate upon received opinions and established usage. Hence the opposition which medical men too often exhibit to the use of private remedies, whatever their acknowledged value, or great efficiency in the cure of disease. No medicine has ever done more for the relief of human suffering than Dr. Osgood's India Cholagogue. The certainty with which it cures Fever and Ague, and eradicates bile from the system, is acknowledged by all.

Be particular to enquire for *Dr. Osgood's India Cholagogue*, and take no other. Sold everywhere.

Dr. Hostetter's Stomach Bitters.—The operation of this palatable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties, and it is recommended to mothers, enfeebled by the cares and duties of maternity, as the safest and best tonic they can probably use. In all the crisis of female life it will be found eminently useful, and elderly persons will derive much more benefit from it than from ordinary stimulants.—Sold by all Druggists and Dealers everywhere. ap25d1m

Loss of Appetite.—In persons of sedentary and literary pursuits, if the brain is over-worked and the muscles under-worked, the appetite is very apt to fall from a general atone of the system. The PERUVIAN SYRUP restores the tone of the digestive system and consequently the appetite, by supplying a pure blood to organs too weak to make it without assistance.

SORE THROAT,
COUGH,
COLD,
and similar troubles, if suffered to progress, result in serious, Pulmonary, Bronchial and Asthmatic Affections, oftentimes incurable.
BROWN'S BRONCHIAL TROCHES
are compounded so as to reach directly the seat of the disease and give almost instant relief.

From the army hospital—the bloody battle-field—the mansion of the rich and humble abode of the poor—from the office and the sacred desk—from the mountain top, distant valleys and far-off islands of the ocean—from every nook and corner of the civilized world—is pouring in the evidence of the astonishing effects of DRAKE'S PLANTATION BITTERS. Thousands upon thousands of letters like the following may be seen at our office.

ROXBURY, Wis., Sept. 10, 1864.

"* * * I have been in the army hospitals for fourteen months—speechless and nearly dead. At Alton, Ill., they gave me a bottle of Plantation Bitters. * * * Three bottles restored my speech and cured me.
C. A. FLAUTE."

South Warsaw, O., July 23, 1863.

"* * * One young man, who had been sick and not out of the house for two years with Scrofula and Erysipelas, after paying the doctors over $150 without benefit, has been cured by ten bottles of your Bitters.
EDWARD WOUNALL.

The following is from the manager of the Union Home School for the Children of Volunteers:

Havemeyer Mansion, Fifty-Seventh Street,
New York, August 2, 1863.

"Dr. Drake: Your wonderful Plantation Bitters have been given to some of our little children suffering from weakness, and weak lungs with most happy effect. One little girl, in particular, with pains in her head, loss of appetite, and daily wasting consumption, on whom all medical skill had been exhausted, has been entirely restored. We commenced with but a teaspoonful of Bitters a day. Her appetite and strength rapidly increased, and she is now well. * * * Respectfully, MRS. O. M. DEVOE."

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y."

"* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use.
Thy friend, ASA CURRIN, Philadelphia, Pa."

"* * * I have been a great sufferer from dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N. Y.

"* * * Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house.
SYKES, CHADWICK & CO.,
Proprietors Willard's Hotel, Washington, D. C.

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O.

"* * * The Plantation Bitters have cured me of liver complaint, of which I was laid up prostrate and had to abandon my business. H. B. KINGSLEY, Cleveland, O."

"* * * The Plantation Bitters have cured me of a derangement of the kidneys and urinary organs that has distressed me for years. It acts like a charm.
C. O. MOORE, 254 Broadway, N. Y.
etc. etc. etc. etc. etc.

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya Bark, Wintergreen, Sassafras, Roots, Herbs, &c. all preserved in perfectly pure St. Croix Rum.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try them.

They are recommended by the highest medical authorities, and are warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

Notice.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and impostor. It is put up only in our patent log cabin bottle. Beware of bottles refilled with imitation deleterious stuff for which several persons are already in prison. See that every bottle has our private United States Stamp over the cork unmutilated, and signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

Josh Billings on Cats

I hev studdyed cats clusly for years and hey found them addikted tew a wild stait They haint got affekshun nor vartue f enny kind, they will scratch their best friends, and wont ketch mice unless thay are hungry It hez ben said that they are good to make up into sassiges, but this is a grate mistake I hev ben told by a sassige maker, that thay dont kompare with dogs

Thare is one thing sartin tha air verry ankshus to live, yu kan turn 1 inside out and hang him up by the tale and az soon az yu are out of site he wil manage to turn a back summerset and kum round alrite in a few daze It is verry hard work to lose a kat If one gits caried off in a bag by mistake, a grate dis ance intew the country ha wont sta lost only a short time but soon appear to make the family happy with their prezence

Old maids ar verry fond ov cats, for the reezon I suppose that cats never marry if tha hev ever so good a chanse Thar is one thing about cats that I do nt like—if yu step onto thare tales by acksident, tha git mad rite off and make a grate fuss about it Thare iz another thing about them which makes them a good investment for poor fokes A pare ov cats will yield each year, without enny outlay sumthing over eight hundred per cat It iz a verry singular fakt that cats dont like a millpond I never knu 1 to git drownd by enny ackseident

Tha luv kreem, but it seems to be agin thare religun to tuch sope Cats and dorgs hev never ben able to agree on the mete question, tha both seem to want the affirmative side ot onst I think ef I kud hev my way, thare wuddent be enny more cats born unles tha cud sho a certificate of good morl charac ter There iz 1 more thing about cats which seems to me to be awl affectation and that is making such a devilish noise under a feller s winder, nights, and then kall it musik If I was to hev my chois between a cat and a striped snaik, I wood take the snaik bekos I kud git rid of the snaik by letting him go Thare aint no statin way to kill a cat if you git one worked up into sassige, and think yu are all rite, jest az likely as not they will cum to and take off a hall lot ov good sassige with them Theze ar mi views about cats, rather hastily hove together and if I haint sed enough agin them, it iz only becos I lack the informashion

Sound Views.—The following is from a speech by Senator Doolittle of Wisconsin, in the Senate on the 27th of April

"We have says he, upon our hands issues enough The single issue of this great war is enough It is all the human mind can grasp, and more than any yet have been able to resolve This gigantic struggle is to determine whether republican government shall live or die, whether a constitutional form of government, resting upon the people for its support, can be maintained, or must perish forever, whether the union of these States is to be continued or broken whether we are to maintain our own rights and liberties as free citizens of this great republic under the Constitution of the United States, or succumb to rebellion, conspiracy and military despotism From the course of events, from military necessity in the prosecution of this war, and, as it seems to me—I say it with reverence—by Providential dispensation—the existence of slavery has become involved in this contest The prosecution of this war to a final triumph on the part of the United States will of necessity destroy slavery within all those States in rebellion against the Government These issues are large enough and broad enough to demand all our time and all our energies, all our means, our whole might, mind and strength to accomplish that great purpose * * * In God s name, let us first save the Union, let us crush the rebellion, let us give freedom to the negroes as the necessary result of the prosecution of this war, and secure it by constitutional amendment But let us postpone the discussion and action upon this and all other issues, which can only serve to distract, divide and weaken the energies of the loyal people in this great struggle For myself, I would so conduct our affairs, if it were within my power, that the whole people of the free States, loyal States, in this controversy should stand together as one man shoulder to shoulder, speaking but one voice breathing but one sentiment, their hearts pulsating with one wish, that is, to save the Government, crush the rebellion and trample the slave Confederacy in pieces "

Converting Lady Rebels—Uncle Sam's nephews in Arkansas have found an agreeable and effectual way of crushing the rebellion It has been said that the women of the South are the most rebellious and but for them, the spirit of rebellion would soon die out The boys have gone on the principle of striking at the roots of the evil and of conquering the women The tactics adopted have been successful so far, and consists of wooing and marrying the fair ones Whether it is because the rebel lovers are out of sight and therefore, out of mind or that they have lost all hopes of seeing them again or because the blue coats have such winning ways we do not know, but it is certain that marriages of the soldiers and citizens are of daily occurrence Scarcely a day passes without one or more of these marriages in this country One clergyman, we are told, married as many as five couples in one day In the adjoining county of Conway, we are told that all single women under sixty are gobbled up as fast as the soldiers find them

This, it strikes us is an effectual way of putting down the rebellion These fair Rebels will, of course be turned over, and be come firm believers in the Union if not unconditional Unionists This is a new phase of the development of Union feeling in Arkansas that must be agreeable at least to the parties consummating the Union —*Little Rock Union*

Two hundred persons were lately arrested at Milan as counterfeiters and it is said that a vast counterfeiting association exists in Italy to which many merchants of wealth belong

The first locomotive engine was landed recently at Ceylon from the ship *Palmerston* It was landed on a bamboo raft and was to be drawn to the railway station by a team of three elephants

The first sturgeon caught each season in Thames is always presented to the Queen—that so honored this year, just caught, was 7 feet 2½ inches long and weighing about 100 pounds

Love can get along with very little language Two squeezes and a hug will convey more meaning than the whole five books of Moses

Eloquent Extract —In a speech delivered before the Legislature of Maine in February, by Colonel Taylor of Tennessee, we find the following eloquent words

"When the atmosphere is damp and filled with malaria and loathsome in every breeze then sir what do we want? We want the keen flash of heaven s electricity, we want the live thunder rolling from mountain top to mountain top and then will peace serenity and happiness return So when this storm is rent by the power of military force and when subjugated treason stands in the presence of that power which it knows will overwhelm it beyond a peradventure then its knees will smite together like Belshazzar s then its traitor heart will cower to the earth the tramp of freedom s foot will crush out treason everywhere and the freed land hearts of the South will leap into liberty and life again God grant that soon that happy time may come, when New England and East Tennessee will meet upon her soil and kiss each other happy in a united land We have got land enough and water power enough and wealth of soil enough to do with the people of New England Come down We want you to bring Lowell and Lawrence and Boston and those bright beautiful towns of yours Portland Bangor and Augusta We want you to bring them down into the heart of East Tennessee there by our bright bubbling springs or clear beautiful rivers with your manufactures and your arts where nature s music has warbled to solitude for ages We want to hear the buzz of ten hundred thousand spindles and the hammers of forty thousand shops tuned to the music of industry and the prosperity of this nation

Movements of Population —There have been some novel and curious movements of population in this country during the last three years or since the war began There has been a large emigration of Southern Union people into the States of the North There has been a large partially free partially forced rebel emigration to the Confederacy from those parts of the Southern States brought within our lines There has been a very large cattle emigration from the Northern States to the recaptured cities of the South as New Orleans Vicksburg Memphis Nashville, and so forth There has been very considerable emigration of dejected rebels from the Western Border Slave States to the gold bearing Territories of the Rocky Mountains There has been a large emigration from the United States to Canada consisting of deserters from our army timid people nervous people and bilious people accompanied by not a few wretched rebels and there has been a counter current larger than usual of Canadians to this country These currents of internal migration are, in their character unlike anything that has ever taken place before If Lieutenant General Grant destroys the army of Lee and crushes the rebellion in a reasonable time, there will within the next few years be a far larger movement of population in this country than any yet seen, In particular there will be an immense emigration from the Northern States southward —*New York Times*

Rebel Agents in Ireland —We are informed, on reliable authority, that there are rebel agents in Ireland who endeavor to convince the Irish people that they are no longer allowed to land upon the soil of the Northern States and that the Governors of said States have forbidden their landing

We hardly need say to the intelligent conductors of the Irish press that this is another outrageous imposition upon the Irish people who may be contemplating emigration to these shores Nevertheless we have to beg of them to contradict, in the most emphatic manner such false assertions, because they may have and doubtless have had the effect to induce credulous and uninformed people to forego their intention of coming hither

Let it be distinctly understood that so far from forbidding emigration the Northern States invite all comers, welcome them with open arms and with both hands Welcome them not to help recruit the armies, as has been wrongfully supposed but to steady work and good pay— work in the factories, in shops in mines on roads, and in the fields There is room for all the labor that will come to us All branches of employment are inviting laborers to come No one who is willing to work need be idle a single day, and the wages that are offered are highly remunerative —*Boston Pilot*

Rebel Murders and Cruelties —Hundreds of men says Brownlow s Knoxville *Whig*, have actually been hung and shot in Upper East Tennessee by Longstreet's thieves and assassins Men of character are coming in who testify that they are knowing to the facts Witcher s company of cavalry, piloted by Nathaniel Brown of Washington county, took James Bell, the brother of Dr Bell of Greene county, forced him to lay his head on a chunk in the road and with stones and clubs beat his brains out They took some of the blood and brains and rubbed them under his wife s nose cursing her and telling her to smell them ! They then burned the house down, and its contents with it, allowing her and her children to look on at the flames The notorious Wesley Peoples and his brother son of old Bill Peoples, were in the crowd Will our men attend to them when we advance into that country? This is the party of murderers, robbers and hell hounds who boast that the Lord is on their side, and observe Jeff Davis' days of fasting thanksgiving and prayer Strange to say these devils are but little behind any and all Confederate partisans in point of morals What an army of thieves and assassins !

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DISCOVERY of modern chemistry and it is impossible to over-estimate its influence as a remedial agent Iodine has been considered the most useful article in Materia Medica and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS AND GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless until Dr Henry Anders a physician and chemist of New York after years of patient labor and experiment discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent This, considered impossible by the scientific world, is attested by certificates of analysis from Dr J R Chilton of this city and Prof Booth U S Mint Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals and its use recommended to practitioners (see "American Medical Monthly July 6 1864 page 76)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms Consumption, Cancer Heart Liver and Kidney Diseases, Rheumatism Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, etc

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body is the result of the employment of Iodine The patient recovers flesh strength and color; hitherto pale, relaxed and feeble, he becomes full, strong and florid
